Huddly Partners with Crestron® to Further Enhance Crestron Mercury® UC Experience

The [Huddly GO](#) ultra-wide angle intelligent USB camera is now compatible with the best-selling [Crestron Mercury®](#) all-in-one tabletop UC and AV solution.

Las Vegas, NV – June 6, 2018 (PDT) – Huddly, the Norwegian-based vision technology company, today announced a new partnership with Crestron, a global leader in control and automation for the modern workplace. Through its new partnership with Huddly, [Crestron Mercury®](#), the best-selling all-in-one UC and AV tabletop solution, is now compatible with the Huddly GO intelligent collaboration camera. The new pairing provides a software-enhanced, undistorted, ultra-wide viewing angle of all participants in a meeting room during videoconference calls. Live demonstrations of Crestron Mercury and the Huddly camera are available at Crestron Booth #2562 and Huddly booth #N-1764 at InfoComm 2018, June 6 – 8 in Las Vegas, NV.

"We are very proud to be partnering with industry leaders Crestron to deliver a best-in-class video meeting experience for end users with Crestron Mercury. Like Huddly, Crestron are committed to developing and delivering cutting-edge technology solutions that will transform the workplace and we are very happy to announce the first step in a partnership that we are confident will go from strength to strength over the coming years" said Huddly CEO Jonas Rinde.

Nic Milani, Director, Technology and Development at Crestron is delighted with the announcement, saying "By pairing the best USB camera in the industry with the best open UC platform, Crestron continues to raise the bar for the Unified Communications experience."

"The Huddly partnership demonstrates our commitment to providing all of our Unified Communications partners with the industry's best workplace solution," adds Milani. "Whether embedding Crestron technologies such as plug-and-play wired presentation, or AirMedia® 2.0 wireless presentation, we're committed to bringing together best of breed products to ensure our customers and partners are successful."

About Huddly

Founded in Oslo, Norway in 2013, Huddly is a vision technology company that combines Scandinavian-designed hardware, software and AI to create innovative products for everyone who uses video to collaborate.

Huddly products are flexible, inclusive, easy-to-use and software-upgradable. Whereas most tech gets old fast, Huddly products stay new, evolving over time via the Huddly Vision software platform with new software updates to improve your video experience. To learn more, visit: www.huddly.com

About Crestron

Crestron builds the technology that integrates technology. Crestron's automation and control solutions for homes and buildings let people control entire environments with the push of a button, integrating systems such as AV, lighting, shading, security, BMS and HVAC to provide greater comfort, convenience and security. All Crestron products are designed and built to work together as a complete system, enabling you to monitor, manage and control everything from one platform.

Crestron's products are backed by more than 90 fully-staffed offices that provide 24 x 7 x 365 sales, technical, and training support across the globe. In addition to its World Headquarters in Rockleigh, New Jersey, Crestron has sales and support offices throughout the U.S., Canada, Europe, Asia, Latin America, and Australia. Discover Crestron by visiting www.crestron.com.
